

47-CFR-ABW  
Stall - Annex

August 13, 1947

Steward:

An Annex patient released from the institution for a work placement is to be given a regular discharge suit, underwear, shoes, shirt, tie, and socks if he does not have any of these items himself. He is also to be given the money in his account plus sufficient money out of the inmate wage account so that he will have ten dollars when he leaves here. If he has over ten dollars of his own, check with the Warden's office before paying him his money.

This does not apply to patients leaving the institution for a short vacation.

Please substitute this memo for the one of July 5, 1946.
